

TOTAL per year:													
	5			20									

Educational objectives (max. 6 items)
 C1. Presentation of the rapidly growing forms of renal replacement therapy , patient eligibility rules and procurement ,
 C2. Presentation of antirejection medication and possible complications following transplantation
 C3. Presentation of the legislation and the organization of organ transplantation in Poland.

Education result matrix for module/course in relation to verification methods of the intended education result and the type of class

Number of course education result	Number of major education result	Student who completes the module/course knows/is able to	Methods of verification of intended education results (forming and summarising)	Form of didactic class <i>**enter the abbreviation</i>
W 01	E W7	He knows and understand the causes, symptoms , principles of diagnosis and therapeutic intervention with respect to the most common internal diseases occurring in adults , and their complications : kidney and urinary tract , including acute and chronic renal failure , diseases glomerulonephritis and interstitial kidney , renal cysts , kidney stones , urinary tract infections	Oral answer	L, CC
W02	E.W37	He knows the types of biological materials used in laboratory diagnostics and rules for the collection of research material ;		
W03	E.W38.	He knows theoretical basis and practical laboratory diagnostics ;		
W04	E.W39.	He knows and understands the possibilities and Limitations of laboratory tests in emergency situations ;		
W05	E.W8.	He knows and understands the course and symptoms of the		

		aging process as well as that the principle of overall assessment and geriatric care interdisciplinary to a patient in the elderly ;		
U 01	E.U1.	performs medical history of the patient adults ;	Oral answer	L, CC
U 02	E.U3.	performs complete and targeted physical examination of the adult patient ;		
U 03	E.U7.	evaluates the condition , the state of consciousness of the patient;		
U 04	E.U20.	qualifies the patient for home and hospital treatment		
U 05	E.U38.	can keep patient's records medical		
K 01		willingly participates in care of patient after transplantation,		
K 02		cooperates in a transplant team,		
K03		actively participates in education society regarding transplantation		
<p>** L - lecture; SE - seminar; AC – auditorium classes; MC – major classes (non-clinical); CC – clinical classes; LC – laboratory classes; SCM – specialist classes (magister studies); CSC – classes in simulated conditions; FLC – foreign language course; PCP practical classes with patient; PE – physical education (obligatory); VP – vocational practice; SS – self-study, EL – E-learning .</p>				
<p>Please mark on scale 1-5 how the above effects place your classes in the following categories: communication of knowledge, skills or forming attitudes: Knowledge: .5 Skills: 5 Social competences: 5</p>				
Student's amount of work (balance of ECTS points)				
Student's workload (class participation, activity, preparation, etc.)			Student Workload (h)	
1. Contact hours:			25	
2. Student's own work (self-study):			9	
Total student's workload			34	
ECTS points for module/course			1,5	
Comments				
Content of classes (please enter topic words of specific classes divided into their didactic form and remember how it is translated to intended educational effects)				
Lectures				
1. Legal basis and organization of transplantation in Poland. The national list of refusals.				

Central List of Recipients .

2. Immunological basis for organ transplantation.
3. Immunosuppressive drugs , principles of immunosuppressive therapy .
4. Infectious complications in transplant recipients .
5. Mechanisms of organ rejection and chronic causes organ damage .

Seminars --

Practical classes

1. Indications for organ transplantation. The criteria for brain death. The choice of a deceased donor, and care giver.
2. Sampling and storage organs. Rules of organ allocation. Renal transplantation. Liver transplantation. Pancreas transplantation and pancreatic islet. Heart Transplant. Postoperative care after organ transplantation.
3. Eligibility transplant recipient, the immunological selection of recipient and donor tissue typing, crossmatch. The problem of donor family .
4. Care for the patient in the early period after kidney transplantation; the most common complications. Delayed taking action by the transplanted organ, the causes of deterioration,
5. Rejection of the transplant. Rules for selection of the immunosuppressive program. Monitoring of immune response. Control of drug concentrations.
6. Acute and chronic rejection of transplants. Histopathology changes in the kidney transplant. Monitoring transplant recipient.
7. Infectious complications in the early and late and post-transplant period. Cardiovascular morbidity in transplant recipients. Hematologic, metabolic, endocrine complications and cancers after organ transplantation.
8. A patient with inefficient transplant. Retransplantation. The results of transplantation. The quality of life of transplant recipients. Pregnancy patients after transplantation.

Other ---

Basic literature (list according to importance, no more than 3 items)

1. Organ transplantation – a clinical guide Andre A.Kline, 2011, Cambridge University Press

Additional literature and other materials (no more than 3 items)

1. Textbook of Organ Transplantation, A Kirk, 2014, Wiley-Blackwell
2. Handbook of kidney transplantation , G Danovitch , Wolters Cluver

Didactic resources requirements (e.g. laboratory, multimedia projector, other...)

Clinical classes, multimedia projector

Preliminary conditions (minimum requirements to be met by the student before starting the module/course)

Knowledge of the basics of internal medicine and basic surgery .

Conditions to receive credit for the course (specify the form and conditions of receiving credit for classes included in the module/course, admission terms to final theoretical or practical examination, its form and requirements to be met by the student to pass it and criteria for specific grades)

oral answer / test

Grade:	Criteria (only for courses/modules ending with an examination)

Very Good (5.0)	Knowledge of issues related to the basics of transplantation is estimated 95%. Student interprets medical research, diagnose , carry out differential diagnosis , proposes treatment very well.
Good Plus (4.5)	Knowledge of issues related to the basics of transplantation is estimated 90%. Student interprets medical research, diagnose , carry out differential diagnosis , proposes treatment above well.
Good (4.0)	Knowledge of issues related to the basics of transplantation is estimated 80%. Student interprets medical research, diagnose , carry out differential diagnosis , proposes treatment well.
Satisfactory Plus (3.5)	Knowledge of issues related to the basics of transplantation is estimated 70%. Student interprets medical research, diagnose , carry out differential diagnosis , proposes treatment fairly well
Satisfactory (3.0)	Knowledge of issues related to the basics of transplantation is estimated 60%. Student interprets medical research, diagnose , carry out differential diagnosis , proposes treatment sufficiently

Name and address of module/course teaching unit, contact: telephone and e-mail address

Department of Nephrology and Transplantation Medicine Ul. Borowska 213, 50-556 Wrocław, tel 71 733 25 00 klinef@am.centrum.pl

Coordinator / Person responsible for module/course, contact: telephone and e-mail address

Prof Marian Klinger 71 733 25 00 klinef@am.centrum.pl

List of persons conducting specific classes: full name, degree/scientific or professional title, discipline, performed profession, form of classes.

Prof. dr hab. Marian Klinger, nephrologist, transplantologist
Dr hab. Dorota Kamińska, nephrologist, transplantologist
Dr hab. Mirosław Banasik, nephrologist, transplantologist
Dr hab. Mariusz Kusztal, nephrologist,
Dr n. med. Maria Magott-Procelewska, nephrologist, transplantologist
Dr n. med. Sławomir Zmonarski, nephrologist, transplantologist

Date of Syllabus development

19.06.2017

dr hab. n. med. Mirosław BANASIK
SPECJALISTA CHOROBY NEFROLOGICZNEJ
NEFROLOG
TRANSPLANTOLOG KLINICZNY
7450306
dr hab. n. med. Dorota Kamińska
specjalista chorób wewnętrznych,
transplantologii klinicznej i nefrologii
5809882

Syllabus developed by

dr hab n.med. Dorota Kamińska
dr hab.n. med. Mirosław Banasik .
